- Service and technology

FAUGET
COMPANY

Why Kenya?

Key Advantages:

- Gateway to East African Community (EAC) markets
- Regional access to Uganda, Tanzania, Rwanda, Burundi, South Sudan, Ethiopia
- Strong import-driven building materials market
- Well-developed logistics and port infrastructure

Market insight

- Numerous small and mid-sized fabricators operate across the country
- Most aluminum, PVC profiles, machinery, and accessories are imported
- Growing interest in upgrading fabrication lines to improve quality and output

Market insight

Demand is strong for:

- Aluminum window and door production lines
- PVC/uPVC welding and cutting machines
- CNC machining centers
- Profile cutting, punching, and corner-cleaning machines
- Glass integration machinery (cutting, IGU, tempering support)
